

VANITA BHARADIYA

FULL STACK DEVELOPER

+91 91044 40840 | bharadiyavanitar@gmail.com | Portfolio: vanita-portfolio.vercel.app | LinkedIn: [vanitabharadiya](https://www.linkedin.com/in/vanitabharadiya) | GitHub: github.com/vanita350 | Surat, India

PROFILE SUMMARY

Dynamic and detail-oriented Full Stack Developer with a strong foundation in building responsive, scalable, and user-centric web applications. Proven experience through a 4-month professional Full Stack Developer internship focusing on layout optimization, modern dashboard architectures, and backend integration. Successfully built and deployed real-world applications utilizing React.js, Redux, Tailwind CSS, FastAPI, Node.js, and Express.js. Passionate about full-stack development, clean state management, and modern JavaScript architectures.

TECHNICAL SKILLS

Languages:	JavaScript ES6+, C, C++, HTML5, CSS3 (Media Queries)
Frontend:	React.js, Redux, SPA, Component Architecture, Responsive Design, Vite, Tailwind CSS, Bootstrap, Framer Motion
Backend:	FastAPI, Node.js, Express.js, REST API Design, Middleware
Database:	LocalStorage, JSON-based storage, MongoDB
Tools & APIs:	Git, GitHub, VS Code, Vercel, npm
Concepts:	Data Structures and Algorithms (DSA), CRUD, State Management, MVC Pattern, Responsive Web Design

WORK EXPERIENCE

Full Stack Developer Intern — Hidden Ideas Infotech 4 Months

React.js | Redux | Tailwind CSS | Responsive Layout Design

- Developed and optimized highly responsive UI components including auto-sliding carousels and advanced navigation menus.
- Built and refactored a custom Attendance Tracking System dashboard to record and display user login times and daily analytics.
- Improved application performance by implementing efficient pagination controls and UI/UX refinements for large datasets.
- Collaborated with backend teams to integrate RESTful APIs and ensure seamless data flow across components.

PROJECTS

Luxury Fashion Store — E-Commerce Website

React.js | JavaScript | Vite | Tailwind CSS | Framer Motion | [Live Demo](#) | [GitHub](#)

- Developed a modern, production-ready luxury fashion e-commerce website deployed on Vercel.
- Implemented product search, category browsing, multi-criteria filtering, shopping cart management, and quick product views.
- Built modular, reusable React components enhanced with interactive animations and micro-interactions using Framer Motion.

Student Management System

FastAPI | Node.js | Express.js | JSON Storage

- Built a robust full-stack management application featuring persistent JSON storage and automated data validation.
- Refactored and optimized backend endpoints to create an interactive student records dashboard with smooth navigation controls.
- Implemented dataset pagination to handle large volumes of student profiles efficiently without compromising page load speeds.

EDUCATION

Bachelor of Computer Applications (BCA)

Swarnim Startup & Innovation University (SSIU)

12th Commerce Stream — Botad

2023

Geetanjali Science School

CERTIFICATIONS & LANGUAGES

Full-Stack Web Development — Red & White Skills Education, Surat

Languages: Gujarati, Hindi, English
